Items shown in purple are escorted

## Comments

This itinerary includes some of the best elements of Japan for 12 nights (14 days) based on the preferences you have mentioned so far. The tour can be made more leisurely or more active to suit you. Sumo tournament takes place in mid-May and we will confirm availability, tickets etc if you decide to go ahead. The price shown does not include sumo tickets or other activities. Kyoto may be fully booked during Golden week so we suggest staying in Osaka but we may be able to find alternatives. We can also add options such as tea ceremony or Kabuki performance. Please let us know if you would like more ideas!

This itinerary is intended as a basis for further discussion.
